DECLARATION OF JANEY LAU UNDER 27 CFR § 1.132

I, Janey Lau, hereby swear and state as follows:

1. I am secretary, treasurer and part owner of Med Five, Inc., the Applicant herein. I have personal knowledge of the matters sworn to below. I submit this declaration in support of the above-referenced patent application.
2. Prior to my association with Med Five I worked in management, purchasing, sales and marketing, and was co-owner of my own commercial real estate company.
3. In late 1990, my husband became very sluggish and I could tell he was going downhill fast. We went to a seminar on alternative medicine and signed him up immediately for chelation therapy. He began the therapy and I decided I would volunteer to work at the clinic. I spent the next few years as a mentor to Dr. Ronald Sorenson, MD. We gave intravenous treatments and protocols using this therapy with EDTA, phosphatidyl choline, high dose of vitamin C and other treatments. After a while, the patients would run out of money or their veins could no longer accept the intravenous treatments. I started researching oral treatments and discovered that the oral treatments on the market were poorly absorbed.

4. About this same time Rick Cowden came into the clinic with an interest in doing exactly that: creating oral treatments that would give the same or better results as intravenous. We began our company Med Five. The first to join us was an associate of the clinic, James Roberts, MD, FAAC. I had spoken to Dr. Roberts on a few occasion and read his web site and other published articles he has written. He was an alternative cardiologist, one of the few in the United States. We also attracted three other professionals and began our research. We devoted full time to this research and it took about a year to finalize the four step Rejuvetate Life System and start marketing and sales of the new product.

5. At our high point we had about 700 regular customers and sales were increasing about 15 per every quarter. Growth continued until 2007 when legal issues between the company partners affected our ability to market and meet customer demand.

6. During the height of our business I would talk with perhaps 30 to 60 customers daily and took notes on their comments. The majority of our customers were over 55 years of age. Less than 3 % had problems taking the product and that was usually contributed (according to them) to indigestion problem. I understood this to mean that 97 % did not have problems and continued to receive the product. The following is an breakdown of the customer comments I received:

Stomach problems reported by 3 % (may have just wanted to return the product)

More energy reported by 74 %

No strokes reported by any customer while on the product

No kidney stones reported by any customers while on the product

Better dental check up reported by customers

Disappearance of noticeable veins and varicose veins reported by customers

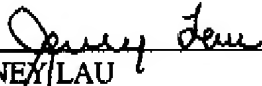

Improvement with diabetes conditions reported by customers

7. Illustrative of the customer comments I received are the testimonials attached to this declaration as Exhibit "A". I believe these testimonials to be true. These same testimonials can be found on the Med Five website at <http://www.medfive.com/testimonials.htm>.

8. I hereby declare that all statements made herein of my own knowledge are true, and that all statements made on information and belief are believed to be true; and further, that these statements are made with the knowledge that willful false statements, and the like so made, are punishable by fine or imprisonment, or both, under Section 1001, Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application or any patent issuing thereon.

Date: Honolulu, Hawai'i, March 4, 2010.

MEDFIVE

testimonials

Last fall I had such poor circulation in my legs I couldn't even walk 20 feet. My legs felt like they weighed 200 pounds each and my wife would have to help me get my legs into bed at night. Today, after 4 months of being on Med Five, I can now put in 12 hour days and the pain is gone! [See full testimonial here!](#)

Med Five

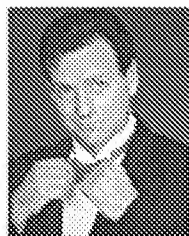

"The most incredible health advance in my lifetime. I can feel the circulation in my body open up everywhere... everywhere!"

~ Tru Hawkins
Radio Personality
KDOWN, Las Vegas

The most dynamic plaque remover we have ever encountered. My blood pressure has lowered significantly within the first month of using Med Five.

~ Lou Epton
Radio Personality
KKVV, Las Vegas

I was treated 2 months ago for enlarged (pockets) between my teeth. One month ago I started on the Med Five system. When I returned for follow up, my dentist and my hygenist were completely amazed not only that there was no plaque in my mouth, but the pockets had grown back 2 counts from 6 to 4!

"I have been on the Med Five product for 2 months now and I came upon a problem! I am an actor and I often play the part of an old Hebrew in a Las Vegas play. I grow a beard for the part because it grows out white, perfect for the part. I went to grow out my beard after taking the product and it is growing out dark, my original color! This is a good problem to have!"

~ F. Ed Knutson
Radio Personality
KKVV, Las Vegas

"I had a CT scan performed of my heart showing six small calcific plaques residing in the wall of the left anterior descending coronary artery. My score was 132, which is in the 75th percentile (high risk). I am happy to tell you that after six months on your product, my second CT scan showed zero plaque and blood velocities were within normal limits. Thank you Med Five, I will continue using your system forever!"

~ Darlene
California

Exhibit A

"I started taking Med Five for disease prevention -- now I have more energy, and to my surprise have had more results than ever expected. After only four months of using the Med Five product, my varicose veins have almost disappeared and my teeth and gums are refreshingly clean when I wake in the morning. I am delighted with these results!"

~ Janey
Hawaii

Do not use this product if you are pregnant or nursing. If you are under a physician's care or taking medication, consult your health professional before using this product. Discontinue use two weeks prior to surgery. This product is not intended to diagnose, treat, cure, or prevent any disease.

It is not necessary to take other detox programs while on the MED FIVE "FULL SYSTEM".
